PharmaChem Cosmetics Industries owns a full fledged manufacturing unit at Ahmedabad Chatral GIDC zone. Our manufacturing division is well designed as per the modern architecture.

The facility is FDA approved and WHO GMP approvable.

It is highly capable of offering chemically complex range of Pharmaceutical Bulk Drug Intermediates and specialty chemicals.

DEAR PARTNERS,

WELCOME TO PHARMACHEM COSMETICS INDUSTRIES,

A pioneering force in the world of Active Pharmaceutical Ingredients (API) and intermediates manufacturing.

As the Managing Director, I take great pride in our company's role as a catalyst for advancing pharmaceutical through the production of high-quality API's and its intermediates. Our relentless pursuit of excellence, coupled with a steadfast commitment to innovation and precision, defines our ethos.

At **PharmaChem Cosmetics Industries**, we operate at the forefront of pharmaceutical manufacturing, technologies. We recognize that the API's and its intermediates play an important role in the production of quality medicines. Hence, our dedication to ensuring the utmost purity, consistency, and reliability in every batch we produce remains unwavering. Our technical team comprises experts who embody a passion for excellence, working tirelessly to deliver products that meet and exceed pharmaceutical industry benchmarks. Through strategic collaborations and continuous research and development efforts. We strive to drive advancements in pharmaceutical manufacturing, contributing to the well-being of global populations.

We extend our gratitude to our valued partners for their trust and support in our journey towards excellence. Let us together continue to shape the landscape of pharmaceutical industry, setting new standards and fostering a healthier life tomorrow.

Thank you for choosing **PharmaChem Cosmetics Industries** as your trusted partner in supply of API and its Intermediates.

Best regards,

Managing Director, PCI

## API

**Fueling Innovation: Explore our premium APIs, the core of healthcare advancements. Partner with us for excellence in pharmaceutical development and a healthier tomorrow.**

### **Ketoconazole**

ANTI-FUNGAL

CAS No. 65277-42-1

IP/BP/EP/USP

END APPLICATION : ANTIFUNGAL AGENT

### **Moxifloxacin HCL**

ANTI-BACTERIAL

CAS No. 186826-86-8

IP/BP/EP/USP

END APPLICATION : ANTIBIOTIC MEDICATION

### **Bromhexine HCL**

ANTI-MUCOLYTICS

CAS No. 611-75-6

IP/BP/EP

END APPLICATION : MUCOLYTIC AGENT

### **Levosulpiride**

ANTI-PSYCHOTIC

CAS No. 23672-07-3

IHS

END APPLICATION : ANTI PSYCHOTIC DRUG

### **Telmisartan**

CARDIOVASCULAR

CAS No. 144701-48-4

IP/BP/EP/USP

END APPLICATION : ANTIHYPERTENSIVE DRUG

### **Hydrochlorothiazide**

DIURETICS

CAS No. 144701-48-4

IP/BP/USP

END APPLICATION : DIURETIC MEDICATION

### **Triclabendazole**

ANTI-HELMINTICS

CAS No. 68786-66-3

EP

END APPLICATION : ANTIPARASITIC DRUG

## PLANTS AND EQUIPMENTS :

With the help of bulletined below equipment we are creating our place in the hearts of several people by offering them Bulk Drug Intermediates of high grade quality:

- Glass lined reactors with distillation set up, heating, cooling, chilling and vacuum. (Capacity from 50 ltrs to 4000 ltrs)
- High vacuum distillation set up in SSR with fractionating columns of 44 ft. and 12 ft structural packing, receivers, high vacuum facility. (Capacity 4000 & 5000 ltrs)
- Stainless steel Reactors having distillation set up, heating, cooling, chilling and vacuum (Capacity from 1800 ltrs to 5000 ltrs)
- Stainless Steel Nutch and sparkler filters SS316 GMP Model
- SS Centrifuges 48 and 36 GMP Model (SS316 & Rubber Lining)
- High Vacuum ejector system supporting with separate cooling tower.
- Stainless steel sulzer packed columns for solvent and product fractionation
- Scrubber-blower and absorption columns
- Tray dryers 48 and 96 Trays SS316 GMP Model
- FBD capacity 120 kg SS316 GMP Model
- Layer separation stirred reactor SS316 GMP Model
- Octagonal Blender SS316 GMP Model
- Multi-Mill SS316 GMP Model
- Vibro Sifter SS316 GMP Model

## PILOT PLANT FACILITY :

- 50 Ltrs and 100 Ltrs Glass assembly supported with all plant utilities
- Filters
- Dryers

## UTILITIES :

- Thermo pack of 4 lakh k.cal Temp up to 300
- Fuel fired steam Boiler of 850 kgs capacity
- Chilled Brine Plant capacity 40 TR at 0c
- Cooling Towers
- Compressed Air and Nitrogen
- Fumes Extractors
- Electric Generator Diesel 200 Kva
- Glass, Graphite and Stainless steel Heat Exchangers

## QUALITY CONTROL EQUIPMENTS AND INSTRUMENTS :

- High performance Liquid Chromatography(HPLC)
- Gas chromatography(GC)
- TOC
- FTIR
- Karl-Fischer Apparatus
- Melting Point Apparatus
- pH Meters
- VTD
- Laboratory Oven
- TLC System
- Fuming Chambers
- Micro balance

## CONTRACT MANUFACTURING :

We provide unmatched interface between expertise and classical chemistry by offering quality, economic and safe Contract Manufacturing. We have fully fledged infrastructure to execute complex reactions such as Grignard reaction, Nitration, etc. to provide contract manufacturing of Active pharmaceutical ingredients and Pharmaceutical Bulk Drug Intermediates as per the requisites of customers.

- Advanced R & D Laboratory
- Process Development
- Analytical Method Development and Quality control
- Technology Transfer: Lab to pilot plant, pilot to commercial plant
- Regulatory Affairs
- Handling Multi step synthesis
- From Kg to Multi tones

We have been offering Custom Manufacturing on the basis of following :

- Exclusive and Confidential Basis
- Manufacturing unit meets WHO -GMP Guidelines
- Quality Documentation
- Process Development as per specifications
- Competitive prices

- Timely delivery
- Qualified work force

## OUR MISSION :

To provide best quality Active Pharmaceutical ingredients worldwide with great customer support with care. Total customer satisfaction and achieving leadership in chosen market by excellence in technology and R&D. Being responsible to the society and inspiring employees to build a brand 'PharmaChem Cosmetics Industries' by high ethical standards in our practices.

## OUR VISION :

To discover & develop the pharmaceutical products to prevent and cure the disease, To produce consistent quality in continuity with our customer's needs to develop & execute innovative idea of production at each stage of the development of our products.

## VALUES WE LIVE BY :

Everything we do and strive for is, at its core, structured by our values. PharmaChem Cosmetics Industries's values can be abbreviated into :

## QUALITY ASSURANCE :

Rigorous quality assurance measures and adherence to industry-leading standards ensure that our products meet and exceed expectations

## INNOVATION :

At the forefront of innovation, we leverage our strong position to pioneer advancements in pharmaceutical chemistry. This dedication to research and development is the cornerstone of our commitment to improving healthcare outcomes.

## TRUST & TRANSPARENCY :

Transparency is the bedrock of our relationship with our stakeholders. We openly share our processes, pricing models, and decisions to foster trust and confidence in the integrity of our operations.

## EMPATHY IN ACTION :

Behind every product and every decision is a deep sense of empathy and compassion. Our goal is not just to provide solutions but to make a meaningful difference in the lives of patients and their families.
